

I do not support the overturn of New Jersey's Do Not Call regulations. As a New Jersey resident who is listed on the Do Not Call registry, I can happily say that I receive so few telemarketing calls now that I rarely check Caller ID before answering the phone.

I have NEVER used any good or service hawked to me over the phone, and I don't plan to start now. Please keep New Jersey's effective Do Not Call regulations in place. Judging by the vast numbers of people who registered, it's what New Jersey's residents want.
